

## The Only Secure Content Platform Built Specifically for Business

Accelerate work. Anywhere work happens.

There is a better pathway to work. Now teams have secure file sharing capability and access to content delivered at hyper speed, regardless of the size, location, device or bandwidth.

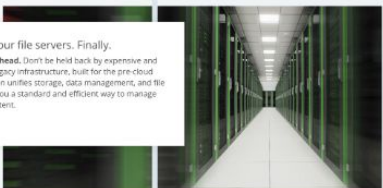

[LEARN MORE](#)

Give IT control and users freedom.

Stay on track. Empower IT with centralized data governance, so they can protect business-critical content wherever it resides, allowing secure content collaboration. Egnyte helps organizations identify, monitor and report on all assets, while staying fully compliant with the latest data regulations.

[LEARN MORE](#)

Eliminate your file servers. Finally.

See the road ahead. Don't be held back by expensive and burdensome legacy infrastructure, built for the pre-cloud era. Our solution unifies storage, data management, and file access to give you a standard and efficient way to manage centralized content.

[LEARN MORE](#)

You're not alone. Never go it alone.

Let us show you the way. Moving to the cloud, reducing the complexity of content management and staying ahead of regulatory compliance are subjects everyone is thinking about. We're committed to helping businesses navigate today's digital landscape. We are right beside you no matter where you are on the journey.
